## Foreword by the Minister

In recent years, Qatar has cemented its position on the global financial map as one of the fastest-emerging economies in the world. In 2015, the Qatari economy succeeded in achieving a balanced and stable growth rate despite global economic challenges. Qatar's GDP grew by 3.7%, surpassing the global growth rate of 3.3% in 2015.

This economic boom strengthened Qatar's position as an attractive investment destination within the framework of economic policies pursued by the state under the wise guidance of His Highness Sheikh Tamim Bin Hamad Al-Thani, Emir of Qatar. These policies fall in line with the Qatar National Vision 2030, which aims at establishing a diverse and competitive knowledge-based economy.

All economic sectors have witnessed remarkable growth that contributed to creating significant investment opportunities, reinforced by the economic strategies adopted by the State of Qatar, including: the diversification of income sources, encouraging the private sector to actively participate in development, revising investment laws and regulations, providing a host of incentives and facilities such as tax exemptions, and securing the freedom of capital movements.

Under this integrated economic framework, the Ministry of Economy and Commerce has played an important role in strengthening collaboration between government agencies to help foreign investors overcome challenges. The ministry has launched a number of initiatives to facilitate the establishment of businesses in Qatar by allowing the incorporation of companies through its mobile phone application in addition to the activation of the single-window system among other important initiatives.

I am pleased to present this booklet, which is part of the Ministry's efforts in highlighting promising economic opportunities to bolster Qatar's position as a leading destination for global investment.

**Ahmed bin Jassim bin Mohamed Al Thani**  
Minister of Economy and Commerce

## Ministry of Economy and Commerce

The Ministry of Economy and Commerce aims to promote a diversified economy and a self-reliant private sector within a competitive business environment that is aware of consumers' rights and duties toward traders.

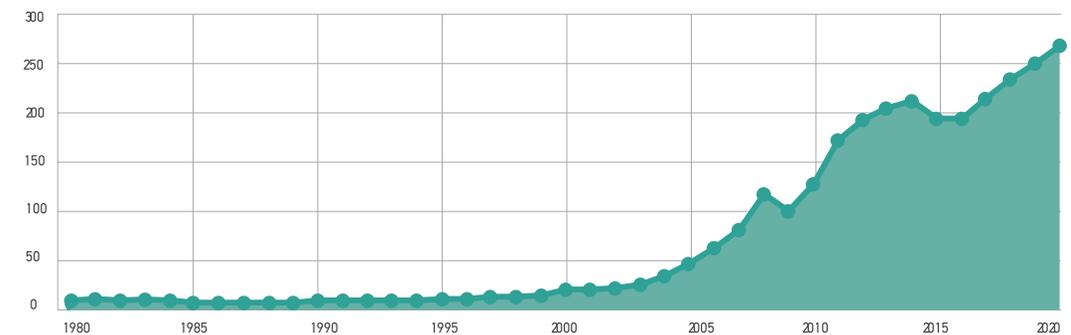

Through its partnership with the private sector, the Ministry is committed to promoting sustainable development in a fair and competitive environment by encouraging diversified investments, implementing policies, regulating markets and protecting consumers therefore Department of Business Development and Investment Promotion at the Ministry of Economy and Commerce is the official body that processes non-Qatari investment requests and provides comprehensive information to investors about the local business environment, current investment projects as well as incentives offered by the State of Qatar.

The department is tasked with strengthening the relationship between prospective investors and government agencies, helping them to establish a business in the State of Qatar.

## Investment in the State of Qatar

Qatar represents an attractive destination for foreign investments, offering investors political and social stability in addition to a full range of benefits to energy-consuming industries. The State of Qatar has the largest gas reserves in the world and enjoys a strategic location within the Gulf region. Furthermore, the State of Qatar has adopted a free market economy and enacted laws and legislations that are being continuously revised to ensure an open economy with no business restrictions, customs burdens or limitations on money transfers in addition to providing incentives and facilities to bolster investors' profits.

## Law no. (13) of 2000, Qatar's investment law regulating the investment of non-Qatari capital in economic activities and its amendments

### Investing non-Qatari capital. Article (2)

2-1 Taking into consideration the provisions of clause (3) of this article, the foreign investors are entitled to invest in all sectors of the national economy, provided that they have one or more Qatari partners whose share is not less than 51% of the capital, and provided that the partnership is established lawfully according to the provisions of law.

2-2 However, The Minister may allow non-Qatari investors to bypass the proportion of contributions (49%) and up to (100%) of the project capital, in the areas of agriculture, industry, health, education, tourism, development and exploitation of natural resources, energy, mining and business services consulting, technical, information technology, cultural services, sports and entertainment and distribution services. Any areas other than the previously mentioned may be added by a decision of the Council of Ministers.

2-3 Non-Qatari Investors mentioned in the two previous clauses are prohibited to invest in the fields of banking, insurance companies, commercial agencies, and real estates purchase.

2-4 Non-Qatari Investors may own a percentage ratio of not more than 49% of the capital of the Qatari shareholding companies listed on the Qatar Exchange upon the approval of the Ministry, at a percentage proposed in the articles of association, where they may have a percentage ratio of more than the one referred to, upon the approval of the Council of Ministers and according to a proposal from the Minister

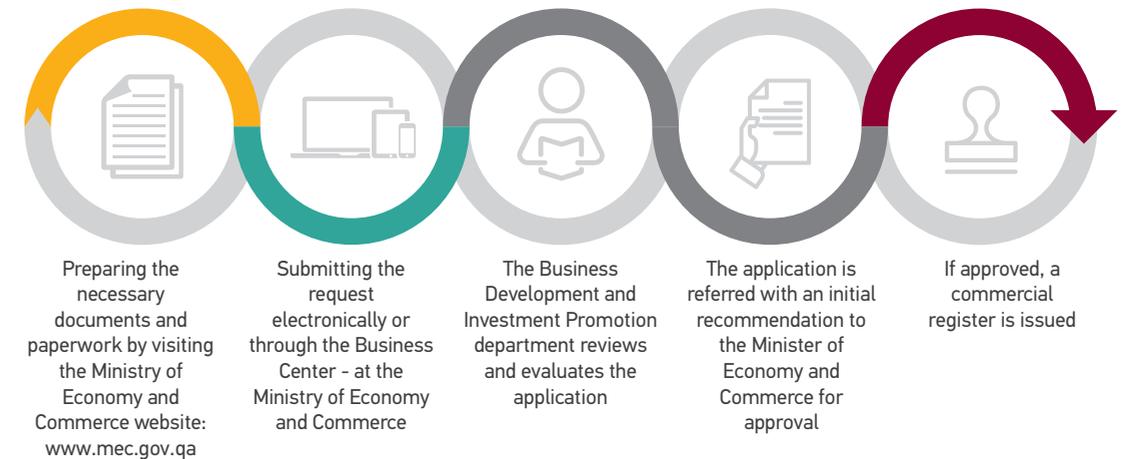

Gulf Cooperation Council (GCC) citizens will be treated as Qataris in regard to owning company shares listed on the Qatar Exchange.

To review Law No. 13 of 2000, regulating non-Qatari capital investment in economic activity 13/2000 and its amendments, please visit [www.mec.gov.qa](http://www.mec.gov.qa)

The competent authorities regularly review the law and study the possibility of improving and amending the law articles that serve Investment Promotion if needed.

The economic projects that are deployed by the State of Qatar contributes is developing economic projects that contribute to the accomplishment of Qatar National Vision 2030 and the promotion of a diversified and competitive national economy to ensure comfort and prosperity high living standards and meets the current and future needs of the country's citizens and residents.

### Ras Bufontas special economic zone

adjacent to Hamad International Airport, covers the following sectors: healthcare & medical devices, aircraft and automobile industries, advanced technology, logistics, and business services.

### Al Karaana Economic Zone

is devoted to support the specialized industries and logistic services sector. The total area of Al Karaana Economic Zone is 38.43 km2, Strategically located half way between Doha and Abu Sumra on the border of the Kingdom of Saudi Arabia. Al Karaana provides all the required infrastructure for successfully servicing the GCC countries and global markets.

### Um Alhoul Economic Zone

is dedicated to support light industries sector. The total area is 33.52 km2. It is located next to the new port of Al Wakra Southern. Um Alhoul is suitable for companies looking for world-class infrastructure and light industries.

### Qatar's railway network:

The State of Qatar is embarking on a momentous venture with the development of not one, but four rail initiatives – to be known as The Qatar Rail Development Program (QRDP).

QRDP will consist of:

- Doha Metro
- Long Distance | Passenger Rail
- Long Distance | Freight Rail
- Light Rail Transit (LRT)

ALWAAB CITY

### Al Wa'ab

Offering meaningful value at every touch point, Al Wa`ab City delivers high-quality and genuinely meaningful offerings for residents, guests and visitors alike. A low-rise, low-density development with a true sense of place, Al Wa`ab City is strategically located in Doha, surrounded by main arterial roads, close to the planned metro and next to some of Doha`s premium schools.

## Major ongoing projects in the State of Qatar

### Doha's new port

One of the world's largest greenfield port developments. Strategically located south of Doha, the QR27 Billion (\$7.4 Billion) mega project, which includes a new port, a new base for the Qatar Emiri Naval Forces and naval channel within the Qatar Economic Zone3, will span a 26.5km2 area.

### Energy City Qatar (ECQ)

Energy City Qatar is the first integrated energy business hub in GCC and Middle East. The purpose of ECQ is to enhance the Gulf region's ability to capture critical revenue streams from hydrocarbons and act as a nucleus for the core elements of the Middle East's growing oil and gas industry.

ECQ is located midway between the Dafna business/residential district and the Lusail development district on the east coast of Qatar, approximately 20km north of Hamad International Airport. The site is connected to Lusail City via the Al Khor expressway.

### Logistic Village Qatar (LVQ)

The modular spaces at the LVQ can be tailored to meet customer's complete logistic needs. The versatile logistics centre has enabled GWC to offer practical and flexible bespoke service packages based on the customer's needs.

Snapshot view of the Logistic Village Qatar (LVQ):

- 1 million square within Meters Master-Planned Logistics Village
- 330,000m2 of warehouse
- 100,000m2 of truck parking and maintenance workshops
- 44,000m2 of container depot
- 47,000m2 of laydown area and auction yard
- 43,000m2 of residential and recreational facilities

## Major ongoing projects in state of Qatar

### Msheireb project

Msheireb Properties' flagship project, Msheireb, will regenerate and preserve the historical downtown of Doha. This pioneering project that is worth QR20 billion aims to revive the old commercial heart of the city through a new architectural language that is based on community living, across a 31 hectare (76 acre) site. The aim of the project is to bring people back to their roots – to make Doha unique and rediscover a sense of community and togetherness.

It represents the vision of Msheireb Properties' chairperson Her Highness Sheikha Moza Bint Nasser: to create and build environments that reflect the culture and aspirations of the people of Qatar.

### Lusail Iconic Stadium

The new Lusail Iconic Stadium, with a capacity of 86,250 people will host the opening and final matches of the 2022 FIFA world cup. Located in Lusail City, the stadium takes its inspiration from the sail of a traditional showboat and is surrounded by water. After the FIFA world cup, the stadium will be used to host other spectacular sporting and cultural events.

### Lusail City Development Project

Lusail is a new coastal city under construction located north of Doha and will cover 35km2. The project will contain 18 different districts and will include a lagoon with two marinas. 25,000 residential units, high and low rise buildings, commercial districts and mixed-use areas, retail areas, two golf courses, 22 schools and a hospital.

Value: US \$5.5 billion

Client: Lusail Real Estate Development Company Schedule: The project is currently under construction and infrastructure works that is expected to be completed in 2018.

Hyder Consulting Middle East, Halcrow and Cowl and Partners have been commissioned to prepare detailed infrastructure plans. Parsons International is the project manager.

There are various future projects in the other sectors to be performed under the umbrella of Law No. 13 of 2000 and its before amendments. These projects are meant to meet the needs of citizens and residents and provide unique and privileged services.
